

## Season 2 Episode 19

## Julian Attacks

Julian is a yin-yangite nerd that is wearing nothing but yin-yangite briefs and he walks around a ghostly white world that is inhabited by yin-yangites that have died. Julian walks around them and hears one yin-yangite lady babble, "I was killed in that great purge 7000 years ago." Another one said, "I was killed on a suicide mission. I am pretty sure my boss hated me." Julian finds the yin-yangite library that is in a plain white stone building that looks like it was made in the dark ages.

Julian struts in the library and he looks at the dusty shelves and he looks over the books there. Julian eyes a book that is titled, "Deceased Yin-yangite Intervention in the World of the Living." Julian grabs the book and he takes it to a desk and he looks at the cover. It shows a yin-yang and some yin-yangite controlling someone that is alive. Julian opens the book and he looks at the pages filled with walls of text. He finds a wall of text that reads, "It is possible for a deceased yin-yangite to take over and control the mind of a living yin-yangite. It involves crafting a machine to use as a control center for the host as well as intense mental training and using a living yin-yangite as a host and the living yin-yangite can only be possessed when they are in a vulnerable mentality." Julian awkwardly smiles as he reads that part of the book. A fat bald monk with a star tattoo on his face is in the library and he eyes Julian reading this book.

Ivan, Safron, and Dirk are in the main Ultraverse city where a madman is controlling a robot mech that reveals the madman driving it and it has a large hypnotic wheel on it. The Ultraverse Army sends in their forces which include tanks, and armed ground soldiers. The army forces look at the hypnotic wheel and they get hypnotized. The madman said, "You are now all under my command. You will bring all the precious treasures from the Ultraverse Bank and bring them to me." Dirk fires silly string at the wheel and Dirk said, "No you won't." Ivan, Safron, and Dirk confront the madman. Dirk said, "You are not getting anything but a prison sentence." The madman said, "You fools. My hypnotic wheel is more powerful than any weapons you have." The madman brings the hypnotic wheel into overdrive and Dirk catches a glimpse of it and his eyes go into swirls and he said, "Your wish is my command." Safron said, "He got Dirk." Ivan and Safron jump on Safron's skateboard and she skateboards around the madman. Safron uses a grind rail and she jumps at the madman. Ivan and Safron try to strike their swords at the hypnotic wheel and they all get glimpses of it and they become hypnotized.

The madman stands triumphant over Ivan and Safron. The madman laughs and said, "You monks have met your match. There is no force in the Ultraverse that could possibly stop me." Ivan gives a soulless look to the madman. Julian finishes constructing a control center and he connects a device to his head and he gets at the controls. He targets Ivan and he begins the mental connection between him and Ivan. Julian suddenly finds himself in Ivan's body. Julian looks at himself as Ivan and he said, "I, Ivan. I thought it be much more work to

control him. I thought he have powerful mind.” The madman looks at Ivan and he said, “What did you say?” Julian spots the madman and he spots Safron and Dirk being under his hypnotic mind control as they have swirls in their eyes. Julian sees Safron and he said, “No one do thing to Safron.” Julian gets engulfed in rage and he draws out Ivan’s sword and he jumps and he slashes down at the madman. Julian does a series of slashes with his sword and he leaves the mech and the hypnotic wheel sitting there in a pile of debris.

The madman gets arrested by Ultraverse authorities and Safron and Dirk return to normal. Safron and Dirk reunite with Ivan. Dirk said, “Now that was something.” Safron said, “I was pretty sure you were hypnotized too. Maybe your bizarre yin-yangite physiology made you immune to his hypnosis. You must have pretended to be hypnotized to trick him into thinking you were under his control when you weren’t. I am so proud of you Ivan.” Safron hugs Julian in Ivan’s body and Safron kisses Julian. Julian gives an overjoyed smile. Julian said, “Miss Safron. You go on date with me tonight?” Safron said, “Of course we can. I am your girlfriend. We are supposed to go on those all the time. I guess it took you all this time to figure that out. I am usually the one that asks to go on a date. We will meet tonight for sure.” Ivan and Safron walk off and Dirk gives them odd looks. Dirk thinks, “Ivan has never asked Safron out on a date before. He also doesn’t speak English like an immigrant. Something is horribly wrong here.”

Julian sits at his control center while Ivan is trapped in a glass cube container in front of Julian. Ivan said, “What is all this?” Julian said, “You know none this, Ivan. You took one thing I care about more than anything. I give you what right.” Ivan said, “How could you come back like this? You are supposed to be dead. You turned into an egg. Most yin-yangites turn into eggs when they die.” Julian said, “I know what you don’t know. This yin-yangite afterlife. I found way to take over your body and live life for you.” Ivan said, “You are living my life right now?” Julian said, “That correct. I play with Safron and there nothing you do to stop me.”

That evening, Safron goes to Ivan’s house and it is decorated with dim lighting with candles everywhere. Ivan has a luxurious feast set up with exquisite foods. Safron said, “This looks awesome. I wasn’t expecting this.” Ivan said, “You best girlfriend in Ultraverse. You deserve only best.” Ivan and Safron dine on the luxury food. Afterwards, Ivan shows Safron some art of her. Ivan said, “I just paint these today. There no better way to give affection than art.” Safron looks overjoyed with the art. Safron said, “My Ivan. You are so sweet. I knew you could be sweet.” Safron kisses Ivan.

Ivan and Safron get in Ivan’s bed. They sleep next to each other in the bed designed for one person. Safron said, “This date was really something. I think every girl in the Ultraverse is jealous of me and I think every boy in the Ultraverse is jealous of you.” Ivan said, “You best girlfriend. You one kind.” Dirk sits in front of a computer screen and watches this entire thing using the security cameras in Ivan’s house. Dirk thinks, “It is a good thing Keith had all these security cameras installed in Ivan’s house. Something is horribly wrong with Ivan and Safron is too blind to notice any of this.”

The next day, Ivan and Safron go skateboarding in the skatepark. Ivan shows off his mad skateboarding skills while Safron shows her skills. Ivan and Safron get ice cream from an ice cream vendor and they walk around a beautifully designed park that is filled with

hedges, statues, and fountains of historic Ultraverse figures. Dirk stands on the sidelines and watches all of this.

Ivan leaves Safron to get something and Dirk jumps out at the lone Safron. Dirk said, "Safron, something is horribly wrong with Ivan." Safron said, "There are always things that are wrong with Ivan. He's a yin-yangite so that is kind of expected." Dirk said, "Ivan is acting strange. He seems to be treating you way more than usual." Safron said, "Ivan may have got a sudden burst of inspiration to treat me more." Dirk said, "He started acting like this when we took on that hypnotic villain yesterday. It may have done something to Ivan's mind. Ivan's mind is strange compared to ours. It is something we don't really know much about." Safron said, "You are just being ridiculous." Dirk said, "Don't you also notice that his speech patterns have changed? He speaks as if English is not his first language." Safron said, "This is a bunch of crazy talk." Ivan shows up and he said, "Hello, Safron. Want continue our date." Safron's eyes go big as she realizes that Ivan's speech is in English. Dirk said, "You see. I told you something was up with him."

Ivan and Safron are at Ivan's place again. Safron said, "Tell me something I don't know about you." Ivan said, "I think you know what you know about me." Safron said, "Tell me a story about one of our past adventures." Ivan said, "I know a lot past adventures. We go so many of them." Safron said, "Help me remember them. I think you have a better memory than me." Ivan said, "Well, there that one time we took on that guy with swirly wheel." Safron said, "I know about that. Tell me about something from maybe a few months ago." Ivan stops and thinks in deep concentrated thought and he said, "There that one time we took on creep, Julian. That guy was creep. He trick me to make art of you you didn't like." Neurons fire off in Safron's head and she thinks, "Dirk is right. Ivan's speech mannerisms have changed. Julian also had those same speech mannerisms. Could this be the work of Julian or... the Asterix Empire?" Safron gives a slightly creeped out look and she said, "Yeah. That Julian was a creep. I guess it is good he is dead now so he can't do anything more." Safron looks at her watch in one of her spike bracelets and she said, "Oh, I almost forgot. My father wanted to meet me about something. It was nice seeing you." Safron looks at Ivan and she awkwardly kisses him and leaves.

Safron finds Dirk walking down the street. Safron said, "Dirk." She runs up to Dirk and she said, "Dirk. I think you are right about Ivan. He has been creepy lately. I noticed he liked making art of me and he talks like a stereotypical immigrant now. I noticed that he talks like Julian now. I think he might have something to do with this." Dirk said, "Julian? Isn't he that creepy monk that had a crush on you? Didn't he die?" Safron said, "I think he did die but if you remember, Julian was a yin-yangite just like Ivan. There is a lot about Ivan's kind that we don't know about." Dirk said, "Well, what are we going to do about this? Who do we know is an expert on yin-yangites that could know something about this?"

Safron and Dirk go through Ivan's yin-yangite books. Safron spots a section in one of them and she said, "Look at this. It reads, 'When yin-yangites die, their minds are transferred to the realm of deceased yin-yangites. Yin-yangites from generations gather around and converse with each other. There is no known way for yin-yangites to come back from the dead. There is a method that one yin-yangite theorized where it may be possible for a deceased yin-yangite to transmit their mind into the mind of a living yin-yangite. Jordan R Peck believed this when he found his friend started acting abnormally and he starting having the same speech patterns of an infamous yin-yangite criminal that died some time earlier. It

was never proven if this were the case but his friend never returned to normal.” Safron and Dirk give horrified looks at each other. Safron said, “Julian must have found out how to control Ivan’s mind and now he is living in Ivan’s body and controlling it. Dirk said, “It said his friend never returned to normal. Does that mean Ivan will never return to normal?” Safron said, “Ivan is our friend and he is my boyfriend. I will not stand for him to end up dead like this. We are getting our beloved Ivan back if it means risking everything we have.”

Safron and Dirk pay a visit to the lair of Ultraverse Captain Fusion. There are red and black computers sprawled everywhere and there are two large red lava lamps in the background with a computer terminal in between them. Ultraverse Captain Fusion said, “Ivan always was an interesting specimen to me. If what you tell me about him is true, this could be part of a much greater plan from the Asterix Empire to destroy the Ultraverse Monk order and to ultimately enslave the citizens of the Ultraverse. I must act on my commitment to prevent the Asterix Empire from conquering the Ultraverse.” Dirk said, “What are you going to do about this?” Captain Fusion said, “Well, I am an inventor and I have created an invention that might just aid your cause.” Captain Fusion shows Safron and Dirk a machine that consists of three rectangles to lie on and device input/outputs that connect to someone’s head. Captain Fusion said, “This is a Fusion Mind Matrix. It sends your conscience into someone else’s conscience. With this, you could lure Ivan into the middle panel and you and Dirk will go on the opposite ends. You will go into Ivan’s mind and you will find this freak controlling him and duke out some justice towards him. I will stay in the lair and closely monitor the process. It is also possible to send weapons and gadgets in his mind too. You will need all the help you can get. Who knows what this Julian has and what he is capable of. All you need to do is bring Ivan here now.”

Safron and Dirk barge into Ivan’s house and they see Ivan painting a picture of Safron. Ivan said, “Safron, and other guy. I glad you are here to see new painting.” Safron said, “You are coming with us.” Safron takes out a syringe and she aims it at Ivan. Ivan jumps and draws out his sword. He swings it at Safron. Dirk ties up Ivan with his silly string and Ivan breaks through the string. Dirk grabs onto Ivan and he pins Ivan down to the floor. Ivan squirms around as Dirk struggles to keep Ivan pinned to the floor. Dirk said, “Ivan is strong. Now is your chance.” Safron injects the serum into Ivan’s neck. Ivan’s pupils go small and he lies on the floor in place.

Safron and Dirk bring Ivan to Ultraverse Captain Fusion’s lair. Captain Fusion gets Ivan set up on the middle panel and his head is connected to the machine. Safron and Dirk are put in place and they are transmitted into Ivan’s mind.

Safron and Dirk end up in a forest type place with lush green trees at the peak of day. Safron said, “So this is what Ivan’s mind is like. I always wondered what kinds of things go on in this place.” Dirk said, “I think I see someone in the woods.” Safron and Dirk spot someone and it is someone that looks exactly the same as Ivan. Safron said, “Ivan?” Ivan stands and he said, “I am a townsman from the main city of, Ivan.” Safron said, “What are you doing out in these woods?” Ivan jumps to Safron and he gets on his knees and begs, “You must help me. I ran away from the city. Something has gone wrong. There has been a major regime change in the main capitol building of Ivan. There is a freak in a mech walking around with a swirly wheel that is hypnotizing people. There are also battle robots and tanks from the Asterix Empire that are destroying the main city. We have been trying to get access into the

main core nucleus of Ivan but it is locked and sealed off. We need support.” Safron draws her sword and she said, “Well, help and support is what we do best.”

Safron and Dirk go to the city where buildings and roads are paved with stone. The Asterix Empire has their tanks driving around and destroying buildings. They drive and crush everything in their way as they plow through the city. Civilians that look like Ivan run away from the tanks. The tank spots Safron and Dirk. It charges up a blast and before it can fire, Dirk fires some silly string at the cannon and it gets overloaded and it explodes. More tanks come by and Safron and Dirk are surrounded. Asterix Empire Battle Saucers hover around Safron and Dirk. Dirk jumps and he uses his silly string to yank one of the flying saucers into another one. It crashes down and destroys some of the tanks. Safron and Dirk try to run away but they run into the madman with a swirly wheel in a mech. He hypnotizes Safron and Dirk with his large spinning wheel. The madman said, “Your operation is doomed.” A fat bald Ultraverse Monk with a star tattoo on his head jumps out and kicks down the madman and he jumps and presses all his weight on his mech and he breaks it. The fat bald monk strangles the madman and he throws him into a wall leaving it cracked and partially broken.

Safron said, “You look familiar. I think we met somewhere before.” The monk said, “I am Star Monk. I was friends with Ivan right before I died.” Safron said, “I think I remember you now. You were with Ivan and you were battling Multisword when you got killed.” Star Monk said, “I could have done a lot more for Ivan if I were not killed. But what is meant to be is what is meant to be. I have been trying to watch Ivan all I can from the afterlife. I have been on to Julian for sometime now. He has been taking out books from the library on how to take over the body of a living yin-yangite. No known yin-yangite has ever attempted such a thing and if Julian can achieve this, then the yin-yangite kind is in grave danger. I was even more concerned that Ivan is the one he wanted to take over. I knew I had to do something. It is my job to protect and defend Ivan as it is yours. Ivan is a yin-yangite so his main core nucleus of his mind is completely protected by a strong shell that can only be accessed by yin-yangites or anyone with access to Ivan’s mind. Julian got access to that through a machine he constructed. Thankfully, Julian is dumb so he left a perfectly opened portal for anyone to enter and go into Ivan’s mind. I came out here to save the people of Ivan’s mind from danger. Now that I have you two on my side, I think we can attempt to take back Ivan’s mind.”

Star Monk takes Safron and Dirk to a hidden tenement in the destroyed Ivan city. They find a portal machine there and they jump in it and they are sent into a smooth white building that sits on a mountain above Ivan’s city.

Star Monk, Safron, and Dirk find themselves in front of Julian at the controls and Ivan is encased in a glass box. Safron said, “Ivan?” Ivan bashes on the glass box. Ivan said, “Julian has trapped me in here.” Star Monk said, “Stand down, Julian and we will show you leniency.” Julian said, “You don’t any leniency.” Julian presses some controls and some killer smooth white robots with yin-yangs on them come out and they use rocket launchers in their wrists to blast rockets at Star Monk, Safron, and Dirk. The monks jump out of the way. Dirk tries to fire a string of silly string at one of the robots and it blasts the silly string out of Dirk’s hand. Safron tries to slash one down and it causes her sword to shatter like glass. Safron and Dirk look scared and frightened and they stand next to the seemingly brave Star Monk. Star Monk said, “Only yin-yangite weaponry can truly destroy a yin-yangite’s protectors.” Star

Monk takes out his overly large sword with a yin-yang on the gold hilt. Star Monk slashes down the robots and more start coming after him.

Star Monk has all the defenses focused on him. Safron and Dirk jump behind the controls where Julian is and Safron grabs onto Julian and pulls him away from the controls. Safron tightly grabs onto Julian's chest and raises him up to her. Safron said, "You give me back my Ivan now or consequences will never be the same." Julian watches Star Monk rapidly dismantle his defense forces with little challenge. Julian sees he is surrounded by Safron and Dirk. Julian said, "I entitled to what want." A yin-yang forms over Julian and an energy burst is sent at Safron and Dirk and they are sent crashing into the wall. Julian goes into yin-yang overdrive and he forms himself into a white armored mech with a large yin-yangite sword like the one Star Monk has.

Julian gets back to Ivan's controls and he makes Ivan's body in Ultraverse Captain Fusion's lair break through the effects of the serum Safron jabbed into him. Julian in Ivan's body gets up. Julian spots the main computer terminal that is allowing the connection with his mind and Safron and Dirk's minds. Ivan heads for it and Captain Fusion jumps on Ivan and holds him back. Ivan elbows Captain Fusion in the body and Ivan walks towards the main computer. Ivan is about to pound it and Captain Fusion jumps in front of it and he pounds Captain Fusion. Captain Fusion tries to fight off Ivan but Ivan grabs onto Captain Fusion and smashes his skull into the floor. Ivan is about to pound on the main computer terminal.

Captain Fusion grabs a Fusion Communicator and he said, "Safron. Do you copy?" Safron grabs a Fusion Communicator out of her pocket and she said, "What is it, Fusion?" Captain Fusion said, "Ivan's body is running amok. He is going to destroy the computer that is allowing you to be transmitted into Ivan's mind. This could result in serious consequences that could result in you and Dirk going brain dead." Safron and Dirk jump on Julian and Julian throws them off. Star Monk slashes his sword at Julian's armor. Julian grabs onto the blade of Star Monk's sword and he crushes it and rolls it into a ball. Star Monk jumps on Julian and he wrestles him away from the controls. Julian's yin-yang on his armor's chest looks as if it is being charged up and it fires a blast at Star Monk and it sends him flying into the ceiling and he falls to the floor and it cracks. Julian regains the controls to Ivan. Safron said, "Julian. What is the one thing you want more in the Ultraverse?" Julian said, "You, Safron." Safron said, "Correct. If you really want me, you would have to end this madness now so you can be my boyfriend. You are kind of sweet when you are not angered and are not starting useless feuds with other people." Julian stops what he is doing and he turns to Safron. Julian gets close to Safron and he awes at how he is in love with her in his mind. Julian drops his sword and he gets close and personal with Safron. Dirk sneaks from behind and he grabs onto the sword Julian had. Dirk throws it into the glass container that Ivan is in and it shatters. Ivan jumps out at Julian and Ivan goes into yin-yangite overdrive. Ivan said, "No one controls my body and messes with my friends." Ivan turns into a yellow and green yin-yang mech. Ivan fires an overly charged blast at Julian and it causes his armor to explode into particles. Julian sits there in his briefs and he falls down in defeat.

Safron and Dirk run up to Ivan and she said, "Ivan. I am glad we all got together and destroyed Julian's plot but, what are we going to do with Julian? How are we going to make sure he never does anything like this again?" Star Monk gets up and he said, "I will make sure of that. I will see he is sent to the prison in the yin-yangite afterlife." Ivan forms back into his normal self and Ivan runs up to Star Monk. Ivan said, "It is an honor to meet you again,

Star Monk. I didn't think I would see you again. I still have a lot to ask you. I still want to know the real truth of the yin-yangites. Something tells me those almanacs you had are incomplete." Star Monk said, "Any book on any history is always going to be incomplete. There is always information that gets lost or left out. What I do know is that us yin-yangites are just like any other species in the Ultraverse. We have our values and our morals and we ultimately use them to better the Ultraverse. There is a lot that even I don't know about the yin-yangites. My biggest goal was to uncover the mysteries of the yin-yangites but I clearly never achieved that in my lifetime. Some mysteries remain forever, unsolved. I must be heading back to the main yin-yangite afterlife. I have some business to take care off."

Ivan, Safron, and Dirk stand at a rail on a bridge that gives a view over a large portion of the main Ultraverse city. Ivan said, "I still question what the true meaning of the yin-yangites is and what purpose they ultimately serve. Was I ever written to serve a specific purpose?" Safron gets close to Ivan and she said, "You do serve a specific purpose. It is to serve and protect the Ultraverse and to be my boyfriend." Safron gets close to Ivan and kisses him. Ivan still looks stern. Safron said, "I am glad that my Ivan is back."
